

Durastar Diamond Blades with Flange

Buy our products online at www.asahi-diamond.com.au

Asahi Durastar Diamond Blades with a flange are a professional blade for granite with side protection.

Designed with a fixing flange, this range provides the ability to flush cut the material while making use of the entire blade. Being able to continuously cut through the material results in a more professional finish.

Designed for cutting materials including: Granite and hard brick.

Diameter		Segment		Material	Mounting	Stock Code
