

## Light Duty Water Swivels

Buy our products online at [www.asahi-diamond.com.au](http://www.asahi-diamond.com.au)

Water Swivels supply water and coolant through the centre of the Core Drill to the cutting face.

This cools the bit and flushes the cut material, preventing jamming and excessive wear.

Using Water Swivels allows faster drilling speeds and feed rates and also provides longer tool life.

Description	Input Size	Output Size	Stock Code
TWB Water Swivel standard 1/2" chuck	13mm - 1/2"	1 1/4" UNC	811
